Price List - 2017

Light is OSRAM

# Light is Quality of Life

Up to  
**100 LEDs**  
at a time can be controlled by matrix LED car headlights

The Norwegian Getaway is fitted with over  
**17 km**  
of flexible LED modules and other luminaires

60,000 lenses are to be found on each  
**spotlight**  
diffuser plate in the Lenbachhaus

100 different  
**stages of brightness**  
can be created by the lighting system in the Lenbachhaus

Xenon car headlights consume  
**50%**  
less electrical energy than halogen lamps—and they are twice as bright

LED-based products generate **29%** of OSRAM's total revenue

OSRAM has more than **8,000 patents** for LED lighting technology

São Paulo's soccer stadium has an illuminance of up to  
**5,000 lux**

Fishermen on Lake Victoria save up to  
**35%**  
of their operating costs using rechargeable lamps

Cruise ships can save up to 18% of their  
**energy costs**  
with OSRAM lighting technology

25 OSRAM employees worked for  
**2½ years**  
to develop the LED lighting solution for the Lenbachhaus

LEDs have a **life** of up to 100,000 hours

# Indoor

## Downlights

Cleverly designed downlights from OSRAM offer high efficiency, low energy consumption, extremely long life.

08

## Spotlights

Dynamic, innovative & playful, spotlights from OSRAM bring together unmatched quality, aesthetics and functionality in a unique mix.

16

## Pendant Luminaires

Sleek cutting edge designs, that spark life in your lives, OSRAM pendant luminaires are the new way to light.

20

## Cove/Shelf Lights

Bright, uniform light that lasts smart lighting for every corner with OSRAM cove/shelf lighting solutions that are efficient, intuitive, maintenance free and long lasting.

22

## Panellights

Panel lights from OSRAM help create a striking array of traditional and unconventional applications, truly spectacular and innovative effects limited only by your imagination.

24

## Battens

Batten Luminaires from OSRAM are easy to install, last a long time and are economical in operation, making them ideal for cost-effective background lighting in the commercial, industrial and residential sectors.

28

## Highbay Luminaires

Innovative unique lighting solutions for highbay spaces that are marked with hi-performance & business efficiency and are easy on maintenance. Work environments that are safe and comfortable with increased visibility.

32

# Outdoor

## Water-Proof & Bulk Head

In warehouses, engineering facilities or basements, water-proof & bulk head luminaires from OSRAM perform reliably wherever conditions are harsher than normal.

34

## Floodlights

High performance flood lights focussed on quality & efficiency light up playing fields in the best way possible. Solutions for application development and optimal lighting design for all your requirements.

36

## Streetlights

Designing new civic identity, OSRAM superior street lights offer ideal outdoor lighting solutions that are environment friendly and high on photometric performance. From modern modular to integrative future fit designs comply with international lighting norms and standards.

40

## Landscape & Architectural Range

Bridging gap between art forms and science are the OSRAM advance landscape and architectural lighting range, that bring together technological advancements and smart controls.

44

## Canopy

Exceptional lighting under canopies with OSRAM canopy lights that are welcoming and well lit. Energy efficient, high performance lighting that help reduce economic costing drastically.

48

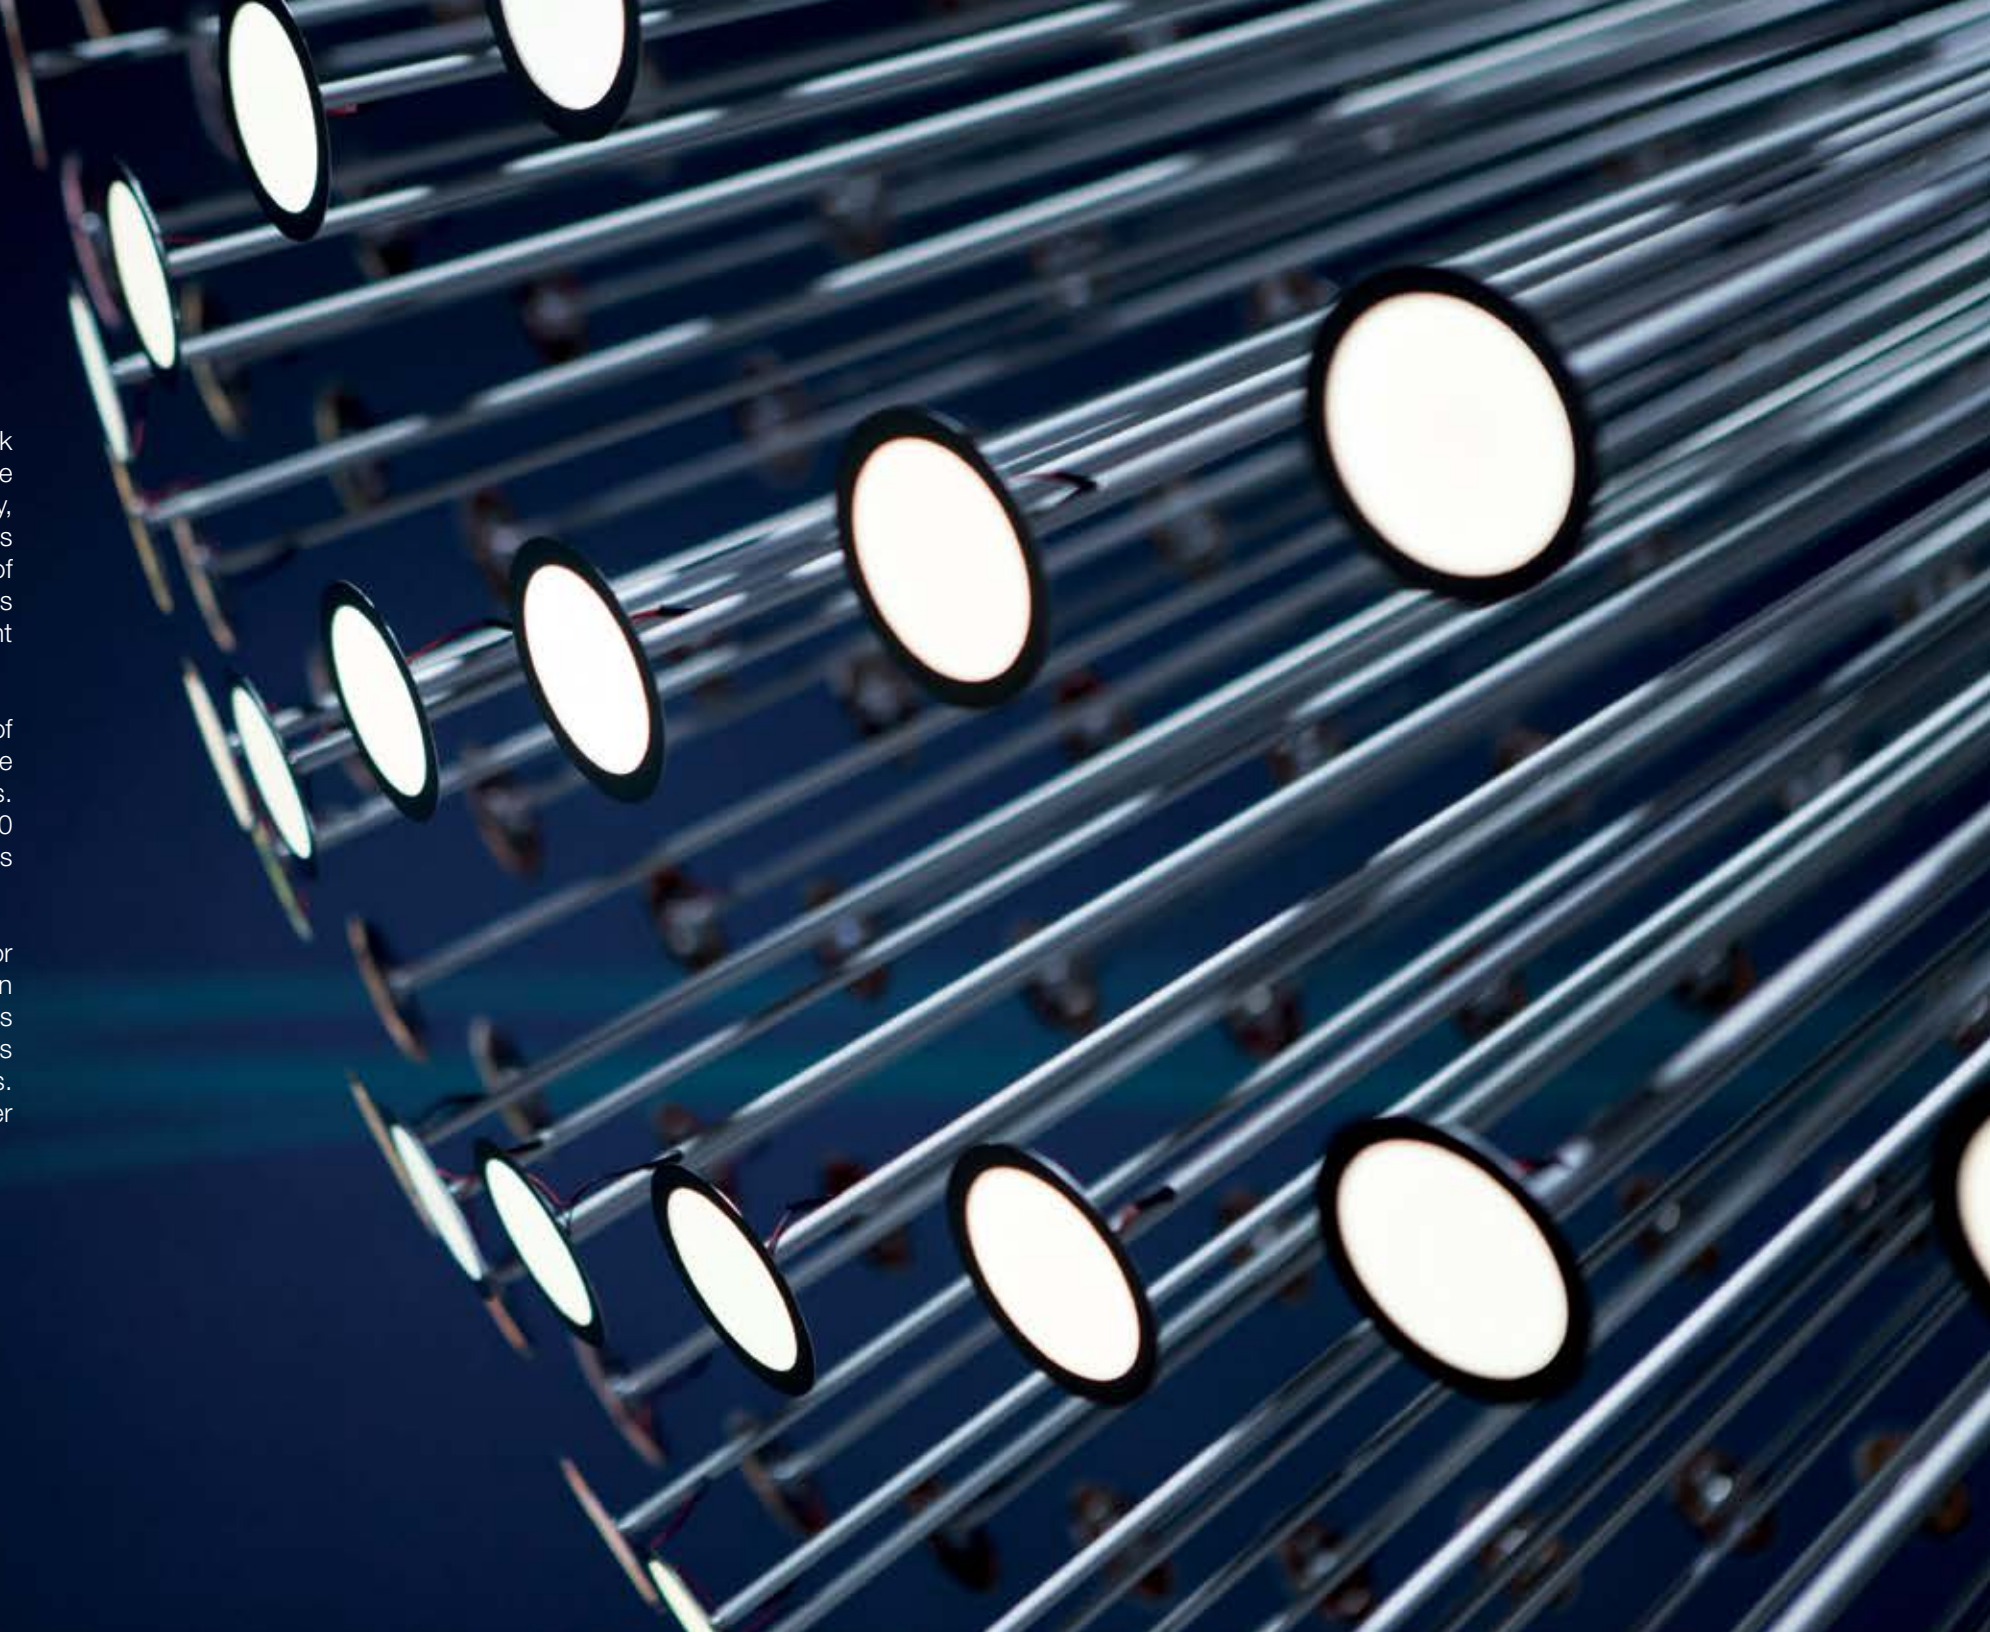

# Creating the future of light with OSRAM

For more than 100 years, the trademark OSRAM stands for innovative and sustainable developments in the global lighting market. Today, OSRAM is one of the world's largest suppliers of products and solutions for a wide range of customer requirements - from lamps and modules to luminaires and high-efficiency light management systems.

OSRAM focuses all its resources on the subject of light, actively supporting its customers in making the best choices to meet their individual requirements. With more than 40000 employees in around 150 countries, OSRAM develops tailor-made solutions to cover the specific needs of its customers.

OSRAM's energy efficient indoor and outdoor luminaires offer an outstanding performance in every respect. The service life of our LED Luminaires is up to 25 times longer than that of luminaires equipped with conventional incandescent lamps. Our mercury free LED luminaires do not only lower CO<sub>2</sub> emissions, they also help to prevent waste.

# Downlights

Comprehensive, variable, individual.

Downlights are all-rounders and specialists at the same time. They are designed to fulfill complex photometric tasks and to provide unique shapes and forms, which allow for a harmonious and integral interior design. Thanks to different accessories as well as various lamp types, wattages and design approaches, downlights open up virtually unlimited opportunities for lighting design.

# Spotlights

Innovative, functional, timeless.

Whether you prefer modern and powerful or classic and compact, innovative spotlights from OSRAM combine high-quality manufacture with timeless design and maximum functionality. Spotlights are the best solution when directional light is needed: they provide precise accent lighting in a wide range of applications, particularly in shops and museums, where products and art objects have to be presented in their best light.

# Panellights

Elegant, pleasant, discreet.

Recessed luminaires perform a wide variety of tasks. Integrated into ceilings, they ensure general background lighting and provide pleasant ambient light in offices, meeting rooms, classrooms etc. In addition, they also act as decorative elements. All recessed luminaires from OSRAM are not only extremely functional, but are also easy to install and exceptionally durable. With their attractive designs, they blend easily into any surrounding and their high quality light produces special lighting effects.

# Battens

Flexible, functional, efficient.

Batten luminaires are convenient to use and also offer a very versatile solution for achieving the illuminance required by relevant standards. They can be mounted on both walls and ceilings. In addition, suspended mounting is also possible with appropriate accessories. The light characteristics of one-lamp or two-lamp batten luminaires are optimized for maximum functionality. With different reflectors, the light can be adjusted to meet the requirements of the specific application.

# Water-Proof & Bulk Head

Combat, durable & Sturdy.

The OLUX® Water-Proof & Bulk Head luminaire are designed to withstand damp and dusty environments. In OLUX waterproof the highgrade polycarbonate housing provides excellent impact resistance while its ribbed, crystal clear optical cover allows exceptional light transmission. The optical cover is UV-stabilized, which gives better resistance to cracking, hazing or yellowing. Our Water-Proof & Bulk Head are ideal, dependable lighting solution for demanding indoor or outdoor environments.

# Streetlights

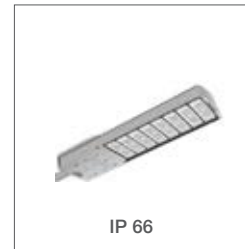

Efficient, balanced, robust.

Create a new civic identity with OSRAM superior LED street lightings. OSRAM's advanced street lights offer ideal outdoor lightings while helping to protect the environment by reducing energy consumption and the light's carbon footprint. OSRAM light engineers are the best at what they do and are experts at creating luminaires that are high on photometric performance while low on maintenance and energy consumption, which are crucial factors in designing efficient lightings for today's roads. From modern modular to integrative future fit designs, using LED or HCL lamps, all comply with international lighting norms and standards.

# Canopy

Compact, long lasting, reliable.

OSRAM is proud to introduce its very first LED canopy light range in response to the many gas station and convenience store operators who are concerned about their rising energy costs. They require something more cost effective than existing metal halide light fixtures. To meet those needs, OSRAM LED canopy luminaires have a long lifetime and are highly energy efficient, offering considerable savings in maintenance and energy consumption over conventional alternative lighting. These new canopy lights brightly illuminate petrol kiosk and convenience store surroundings, which in turn helps to protect drivers, patrons and employees by creating safe, well-lit areas. Light is an invitation and the better the light, it goes to reason, the better the business.

IP 67
